Culvert replacement project:

- Plymouth BF 013-3(17) – VT Route 100, Bridge 114 over Reservoir Brook

The recommended alternative includes a full bridge replacement with traffic maintained on an offsite detour during construction.

The intent of the meeting is to provide an overview of this culvert replacement project to Town Officials, local residents and businesses, emergency services and other interested parties. There will be a review of the existing site conditions, proposed work, and overall schedule followed by a question and answer period. Representatives from both VTrans and the Town of Plymouth will be available at the meeting to address public concerns about the project.

An electronic copy of the *Scoping Report* is available online at:
